

Artwork Template

IMPORTANT!

PLEASE READ ALL THESE INSTRUCTIONS CAREFULLY!

Use the other side of this sheet to draw your artwork!

Please bear in mind that a few millimetres will be cut off around the edge, so please fill the whole page with colour, but keep all important elements like text at least 1cm from the edge of the sheet - anything within 1cm of the edge may not appear on the final printed products. But please do not draw a guideline border on as this may then show up!

- Use the other side of this sheet to create the artwork for your Christmas Cards. This is a special sheet of paper which is suitable for use with most art materials eg pens, crayon, ink, paints, glue etc.

- You can make the artwork portrait or landscape - please tick the box on the name sticker to indicate the orientation of the artwork.

- Please keep all important bits like words well away from the edge of the page. Anything within 1cm of the edge may not appear on your Christmas Card!

- Remember your artwork will be reduced in size for printing so make sure any text is not too small.

- For best results you can use felt tip pens, crayons,

paints and prints - the brighter the colours the better the results! And the more of the page you can fill with colour the better! Please make sure anything stuck on to the paper is secure and won't contaminate the other children's artwork. We don't recommend using glitter as it can contaminate other artwork.

- Please try not to crease or damage the artwork sheets as this may show up on the final print.

- You can use your own paper if you like (eg coloured paper is a great idea as it makes for a nice bright colourful Christmas card) but please make sure it is exactly A4 size. You must stick the artwork sticker on the back so we can identify the artwork.

We hope you have a fun and rewarding time creating your personalised Christmas cards!

Stick your name sticker in this box - please don't write directly onto this sheet as it may show through on the other side!
